PROJECTS

[Corenexui ↗](#)
Mar 2024 - May 2024

This project was made for student developers mainly so that they could focus on backend and other functionalities rather than frontend animations of elements such as buttons, loaders, cards, input elements etc now developers could create those animation using html css and upload it on this Website so that other developers could use it more like a ui Library

[YelpCamp ↗](#)
Jan 2024 - May 2024

This project was first full stack project and was very basic but included all the required security as well as basic features needed on a camp site finder website
